

# Ending the HIV Epidemic (EHE) Indicator Progress: Diagnoses

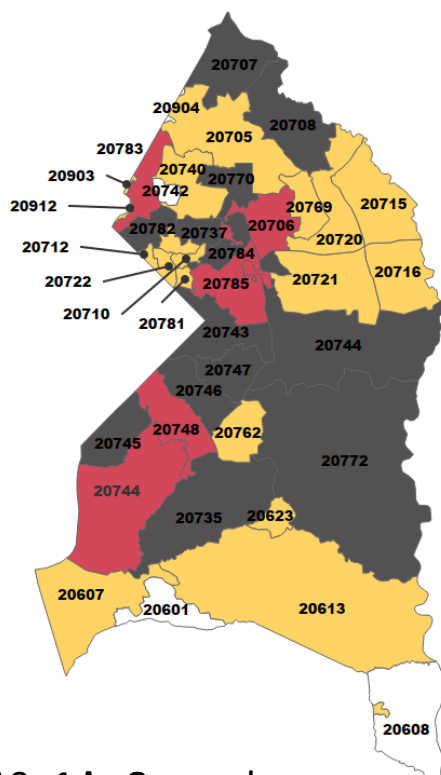

## Prince George's County

### Diagnoses Indicator

As one of the six indicators of EHE progress, the goal of the diagnoses indicator is to **decrease** the number of confirmed HIV diagnoses from the 2017 baseline.

### Reported HIV Diagnoses by ZIP Code, 2017-2020

In 2020, there were 221 newly reported HIV diagnoses in Prince George's County.

At the end of 2019, **1 in 8** people living with HIV in Prince George's County were unaware of their status.

The EHE goal is to decrease HIV diagnoses by **75%** by 2025 and **90%** by 2030.
